## Premium Copra Meal

*With high levels of energy from oil and fibre, CopraStance<sup>®</sup> is a 100% natural feed for livestock. It's also high in bypass protein, and has an ideal protein to energy ratio.*

Made from the white part of the coconut, which is dried, baked and ground, **CopraStance<sup>®</sup>** premium copra meal is totally natural and is chemical and GMO free.

It contains almost no starch, so unlike grain-based feeds, will not cause problems such as acidosis. Instead, the energy in **CopraStance<sup>®</sup>** premium copra meal comes from its high content of coconut oil, digestible fibre, and gluconeogenic amino acids.

**CopraStance<sup>®</sup>** premium copra meal is highly palatable and available as a meal or pellet.

### **Benefits of CopraStance<sup>®</sup>**

- ▶ Premium-grade copra meal
- ▶ Contains the optimal balance of protein-to-energy for production feeding
- ▶ High levels of bypass protein (70% of CP)
- ▶ Contains almost no starch - so will not cause acidosis
- ▶ Rich in energy from digestible fibre and oil

### **Nutrient Analysis**

<b>Metabolisable Energy</b>	12.5MJME/kgDM
<b>Digestible Energy</b>	15MJDE/kgDM
<b>Crude Protein</b>	22%
<b>Bypass Protein</b>	70% of CP
<b>Oil</b>	8 - 10%

### **Feeding CopraStance<sup>®</sup>**

**CopraStance<sup>®</sup>** premium copra meal should be introduced gradually into the diet in a over a period of 10-14 days. It must be fed in conjunction with additional roughage such as hay or pasture. As a basic guide for quantities to feed, refer to the 'Feeding Guide' below.
