Flame PollaBran®

Premium quality pollard & bran

Whatever your production or performance aims, Flame PollaBran® is the ultimate multi-purpose feed.

Made from 100% Australian wheat, **Flame PollaBran®** is simply all-natural pollard & bran. Feeding **Flame PollaBran®** strategically can help supply ready energy to horses, achieve maintenance, growth or production in ruminants, and provide energy and protein for pigs and poultry.

- ▶ High in energy (12MJ ME/kg DM; 12.5MJ DE/kg DM)
- ▶ Rich in protein (17%CP – entirely rumen degradable protein)
- ▶ Great source of digestible fibre
- ▶ Totally natural
- ▶ Competitively priced

Flame PollaBran® - perfect for:

Ruminants

Maintenance: **Flame PollaBran®** supplies Rumen Degradable Protein and Energy for feeding TO THE LINE (ie. to achieve maintenance).

Growth & Milk Production: When fed together with a source of bypass protein - such as **CopraStance®** - **Flame PollaBran®** provides additional energy to feed ABOVE THE LINE, which is required for growth and lactation.

Fattening: The starch in **Flame PollaBran®** is converted to Propionic Acid in the rumen (a volatile fatty acid) which supplies the ruminant with glucose and acts to promote fat deposition.

Pigs & Poultry

Flame PollaBran® provides energy and protein for maintenance, reproduction and growth.

Horses

The starch in **Flame PollaBran®** provides the horse with energy for explosive exercise and conditioning. When fed together with a low starch, high oil feed - such as **CoolStance®** - the horse is supplied with balanced energy for explosive exercise and stamina. **Flame PollaBran®** is also a rich source of digestible fibre.

Nutrient Analysis

Dry Matter	90%
Min. Crude Protein	17%
Max. Crude Fibre	10%
Oil	5%
Starch	20%
Metabolisable Energy (ruminants)	12 MJ/kgDM
Digestible Energy (horses)	12.5 MJ/kgDM

Feeding Flame PollaBran®

Flame PollaBran® is a suitable feed for all classes of livestock. It is recommended that it be introduced into the diet gradually over a two-week period. It should always be fed together with adequate roughage, and free access to fresh water. For horses, pigs and poultry, it is also advisable to feed **Flame PollaBran®** in conjunction with a vitamin and mineral supplement.

See overleaf for feeding rates.
